Nationality:	*Austrian*

Profile

Software engineering student with an HTL education in biomedical and health informatics. Experience in developing web applications and Java-based software, as well as in software architecture, databases and project management.

Education

2025 – present — FH Wiener Neustadt, Biotech Campus Tulln, Tulln
BSc Software Engineering und Systembau

Technologies: Java, Spring Boot, JavaScript, Git, Linux, algorithms and data structures, databases, OOP

2019 – 2024 — HTBLuVA Spengergasse, Vienna (5th district)
Specialisation in Biomedical and Health Informatics

Diploma thesis (written in English): *Creating a Web Application for a Kenyan Women empowerment group selling their locally sourced products*

Personal responsibilities: *Implementation/Development of the deployment, testing and quality control.*

Technologies: C#, Java, Python, JavaScript, SQL, Spring Boot, Git, project management, frontend and backend development

Projects

2026 — Club management software for a sports club
(see Volunteer work)

Development of a web application (frontend & backend) for managing members, appointments, tasks, activities, meetings, files and integrated email

Technologies: Java, Spring Boot, TypeScript, Svelte, PostgreSQL, Supabase, Docker, Git, frontend and backend development

2026 — Event bus library (https://github.com/aandreielias/EventBus)

Independent development of a lightweight Java library for asynchronous event communication and messaging
Part of the core backend architecture of the club management software

Technologies: Java, Git

2024 — HTL diploma thesis (see Education)
Technologies: Next.js, Tailwind CSS, MongoDB, AWS S3, Cypress, GitLab CI/CD

Experience

08/2024 – 02/2025	Austrian Armed Forces, Hörsching & Vienna **Basic military service**
08/2023	Rehab Zentrum Stadlau, Vienna (22nd district) **Internship in research and development** **Development of an EEG device, sensor data processing and analysis**
08/2022	Rehab Zentrum Stadlau, Vienna (22nd district) **Internship in research, office and laboratory assistance**

Volunteer work

11/2026 – present	Soli Deo Gloria Volleyball Vienna, Vienna **Co-founder and board member (club in formation)** **Helping to set up the organisation of the club** Development of the club management software and design of the visual identity (logo, jerseys and corporate design)
2023 – present	Local church**,** Vienna (11th district) **Sound engineering and event planning** Technical support at events, audio engineering, and planning and organisation of events **Skills: live sound, ProPresenter, event planning**
2019 – present	Private charity events, Vienna **Co-organiser and musician** Organising and running annual charity Christmas concerts with my family (classical music to jazz); playing harp and bassoon

Technical skills

Programming languages	Java, JavaScript, TypeScript, Python, C#, SQL
Frameworks	Spring Boot, Svelte, Vue.js
Platforms and tools	Supabase, PostgreSQL, Docker, Git, Linux, Cypress
Concepts	OOP, algorithms and data structures, databases, software architecture

Personal skills

Languages	German,	*native*
	Romanian,	*native*
	English,	*fluent, written and spoken*
Certificates	pma / IPMA Level D (pm basic)	*by Projekt Management Austria*

Additional information

Interests	Music *(harp since 2014, bassoon since 2018, Vienna music schools)*, sports
Mobility	Driving licence *class B*, own car
